Learning while pandemic first seem to be very hard for us as a parent. Because most of the time before this crucial time children were in the school to follow the discipline seriously. WSS has made it easier for parents and students to learn online and understand the curriculum. Thank you WSS for all the efforts and hard work.

Hi Everyone!
I have made UAE flag with the variety of fruits and vegetables with a help of My Mom, 😊

We used Strawberry, Cucumbers, Apples and Blueberries to make such wonderful flag, I am so excited and I am always proud to live in UAE,

Meaning behind the colours,

Red represents hardness, bravery, strength and courage. The vertical red band can also be interpreted as binding all the other meanings together in unity.

Green represents hope, joy, optimism and love. It can also symbolize the country's prosperity.

White represents peace and honesty. White is the purest color, and is interpreted by some to symbolize cleanliness.

Black Contrary to popular belief, the black band does not represent oil. It stands for the defeat of enemies, and also strength of mind.

Stay Home, Stay Safe

Thank You.

Make girl a stroke of good luck

My mom inspires me to work hard and be a better version of myself everyday. She believed and believes in me every step of the way, even when I was in my lowest, she was always there for me. I take her love for granted all the time but I love her, even though I don't show it enough, but she has made me the person today and I love her for that. She as an amazing role model to look up to, she always helps me look at the brighter side of things. She deserves so much more. Thank you Amma for everything and I love you, to the moon and back.

Sara Raja
As we are celebrating girl child. The woman that inspires me, is my Mum. My Mum has taught me how to look after my self and others, she's taught me how to love my self and others. She's the one who has fed me since the day I was born, kept a roof over my head and kept me safe. Every time I have felt sad or sick she has always been able to put a smile on my face. I aspire to learn more from her and keep her as happy and loved she's kept me.

SHIZA JUNAID
WITH MY LOVELY SIS

Durgha
My mother has been my role model as long as I remember, she is always there when I need her, my mom is working, so the way she balances her family life and career at the same time fascinates me. She has and always will be my role model.

Manahel khan
The only person who inspires me is my mom

"We GUA"

Nouran
Plenty of people inspire you on something but only few push u towards the greatest

Haya 2
Kim Jisso is one of the most inspirational celebrities I've ever known, she conveys the message of working hard to get where you want and that life will not easily give it to you. This enhances my vision of becoming a doctor because it is not an easy job, so I try my hardest presently with studying for the luxury of becoming a doctor in the future. Here are some of her quotes :

"We live in a world where we have to work hard to get what we want."

"I'd ask myself, do you want to give up because it's not easy?"

"Life is all about timing."

Lamia
I have met many different people in my daily life. And every woman or girl have a different story in their life, almost everyone of them inspires me depending on what their role is or their story is.

Suhaimah
My inspiration is my mom she has taught me how to be a better person in life and how to face challenges in life with a smile on the face she is very understanding and really generous woman she is an amazing doctor just like an amazing mother I can't believe how she manages all of her duties at once she truly is an inspiration for me and I would love growing up to be just like her!

Farah
my mom is some one I have always looked up too, the love she has for me, the pain she went through carrying me in her belly for 9 whole months. She has always believed in me, she is my first teacher, and the only one who understands my feelings, who spends her time to talk to me. She is a brave confident person never to shy about anything which is something I always learn from her

Shama Bezanne
My mom is my inspiration because she taught me to always treat others as I would want to be treated, to stand up for those who need it

Mariam Rashid
The person who inspires me the most is my mom. She is a person who believes in me. She wants me to pursue my dreams and have a great career I learnt from a past experience that you should never take a person you love for granted and I am glad she's still with me and I hope she can be

Amna Shah
Among the many amazing girls and women that I have met, my sister is one of those people who has inspired me greatly and has a huge impact on my life. She is a really fun and outgoing person who I've always found as someone who is easy to talk to. Having faced a lot of obstacles and difficulties in her past, she has shown that she is a strong independent woman and always will be. She never hesitates to stand up for her self and for what is right and encourages me to do so as well. I have learnt many things about reality because of her and will always be thankful to have her by my side even if I don't show it.

Zoha kamran
My sister is the biggest inspiration to me. She has always motivated me to work hard and achieve more. She has taught me to never give up even in worst situation. I have always learned to fight against the obstacles because of her.

OMI ALI
My mother is one of the most important motivators in my life. It is because she always encourage me to study hard and always give me a lot of boost. My mother works very hard day and night. It is because she wants to ensure that her children get comfortable life and can study well.

"There are not enough words to describe just how important my mother is to me and what a powerful influence she continued to be. Mother I love you."

Zarah
With my sister

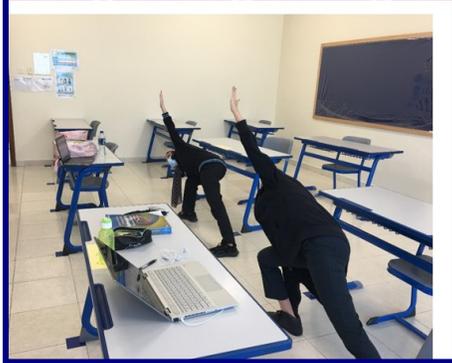

Manahel khan
my mom is my inspiration and my role model she is always the first person to ask me about any issue or problem that I am facing with, she is the best person in the world, she works really hard for me to have a better lifestyle and future and I love her and thank her for bringing me into this world and once again thank you.

Inspirational quotes for my mom:
Always my mother and forever my friend. Mother and daughter's together are a powerful force to be reckoned with. The love of a true mother comes near to be the love of god than any other kind of love.

The bond between mothers and their children is one defined by love.
As a mother's prayers for her children are selfless, so are the wisdom, grace, and strength they provide to their children.

Is this month breast cancer awareness?
The Breast Cancer Awareness Month, marked in countries across the world every October, helps to increase attention and support for the awareness, early detection and treatment as well as palliative care of this disease.

Shreya Anil
2020 has been a powerful reminder that we are all in this together, and our choices and actions have the power to protect the most vulnerable among us in a big way. The same holds true when it comes to breast cancer.
By working together, we can inspire hope and become a force for good "to get her" access to the care she needs.

- Sisters are for sharing laughter and wiping tears.
- Sisters are different flowers from the same garden.
- Sisters take care of each other, watch out for each other, comfort each other, and are there for each other through thick and thin.
- A sister is a special type of angel on Earth who brings out your best qualities.
- Sisters help you find important things when you've lost them. Things like your smiles, your hopes, and your courage. If you don't understand how a woman could both love her sister dearly and want to wring her neck at the same time, then you were probably an only child." – Linda Sunshine

One of the best ways to protect yourself from germs and diseases is proper handwashing. Currently, it's seen as one of the ways to defeat COVID-19. I prefer and would recommend using Dettol as it kills 99.9% of germs and is a well known brand of sanitary products used by many people worldwide.

UAE Flag Day Celebrations @WSS

WSS celebrated UAE Flag Day on 3rd November, Tuesday. To celebrate the occasion, students dressed up in colours of the UAE Flag: Black, Red, White and Green. At exactly 11am, the national anthem was played and everyone took a minute to pay respect to it. Students from Grades 6 – 12 were encouraged to take part in the project "Bring Flag Day to life" to celebrate Flag Day. Students were asked to create a short video clip using still pictures or a movie from a range of topics provided. Overall, flag day was a great event that reminded us of UAE's great choice in colors and the significance behind each.

Done By: Ayman Farooq
Grade: 10GD

Red: sacrifices & martyrdom blood of the nation's sons.

Black: power, strength & resilience.

Green: growth, prosperity, development & progress.

Things **NEVER** to do :

- Don't look at the Mark Scheme while solving the question ,look at it when you are done solving the whole question.
- Don't skip the experimental pages in your coursebooks , they are very important for your paper 4 and 6 .
- Never stop anything/hobby that you love doing or that you have been regular with due to your IGCSE preparation.
- Never stress yourself out , because at the end knowledge and education are a pleasure not an obligation. Always aim for your understanding and not only solving the question right.
