Term 2 Fees

As educators, we really hate having to discuss pending fees with our dear parents. However, the reality is that fee income is our only source of finance, & critical in ensuring payment of staff salaries & bills for the smooth operation of school. Many thanks to all the parents who have cleared their T2 fees in a timely manner. However, unfortunately there are around **800 students still to clear their fees. This is a really critical situation** for us, so please clear pending fees as applicable, so we can operate school & open the re-enrollment facility for September 2024 seats. Thank you.

Dear WSS Parent /Carer,

Subject: The Optimus Wellbeing Award for Schools (WAS)

As you may know already from our SMS, WSS is working towards achieving the international Optimus Wellbeing Award for Schools.

To support us to improve the support we offer, we want to understand the views of parents & students on what we are doing well & what we need to improve in how we support the emotional wellbeing of our students. For this reason, we are **inviting parents & students to complete an anonymous Wellbeing survey. Your views are important to us.** The information from the survey will help our school to improve its work in providing better provision for emotional wellbeing and mental health. All information collected is anonymous and will be kept confidential.

Please note the following important, useful information that explains about the survey process and how the information gathered will be used.

Why we are writing to parents/carers.

- We are asking parents to complete the Wellbeing survey.
- We are also asking for permission to invite your child to complete the survey (if you are happy for your child to do this then you do not have to do anything. However, if you do not want your child to complete the questionnaire then **please let us know by Tuesday 30th January**. If we do not hear from you, we will assume you are happy for your child to be invited.)
- Rest assured that it will not disadvantage you or your child in any way if you decide against you or your child taking part in the survey.

Survey Design & Completion

- The surveys have been specially designed for students/parents.
- The survey link for parents will be shared with you via email.
- The survey may take about 15 minutes to complete.
- Answers to the questionnaire will not be seen by others - unless you or your child chooses to share or take help to complete the questions.

What we need Parents/Carers to do next

- **Please complete the parent survey on the given link (this will be emailed to you) by latest Tuesday 6th February.**
- We hope that you are happy for your child to be invited to take part in this survey too (as noted, if you do not want your child to participate in this survey, you need to contact the school by 30/1/24).

If you have any queries about the survey, you are welcome to contact the PRE Ms. Aiysha at aiysha.k_wss@gemsedu.com Thank you in advance for your support with this important initiative.

MUN & WELLBEING

The diplomacy of wellbeing: Exploring the harmonious nexus between Model United Nations and personal fulfillment.

Doaa Mokhtar

Starting the new year 2024 with the most exciting event for WSS school adds a special sparkle that carries within it strong support for the wellbeing of students at several levels, whether social, cultural, emotional and mental.

Over two days, this momentous event painted an artistic picture that includes all the goals of Wellbeing. Let's quickly take you on a tour that tells the aspects of this event and how it reflects students, staff, & parents wellbeing.

The Model United Nations (MUN) is a popular exercise for those interested in learning more about the UN. Hundreds of thousands of students worldwide participate every year in MUN at all educational levels – from primary schools to universities.

Westminster School Sharjah held its first ever event on the fifth of January. Three E's perfectly captured the WSSMUN as it was an atmosphere charged with excitement, enthusiasm and emotion. And amongst the intensity that consumed the two running days of the experience, attendees had glimpse into wellbeing at its finest.

MUNs embrace the spirit of completion above all else; from heated debates to bold accusations and even calls to war- delegates were motivated and driven to put forth their best effort. Interests were sparked, talents employed and inner fires ignited. Healthy competition requires teamwork and positive participation. Delegates were encouraged to improve themselves and learn a new technique to keep up with escalations.

The admins and student volunteers were the very heart of the function, heroes ~~emerged~~ in their high visibility jackets guiding new comers to their respective committees, helping chairs whenever delegates came forth with questions, overseeing committees and managing logistical aspects.

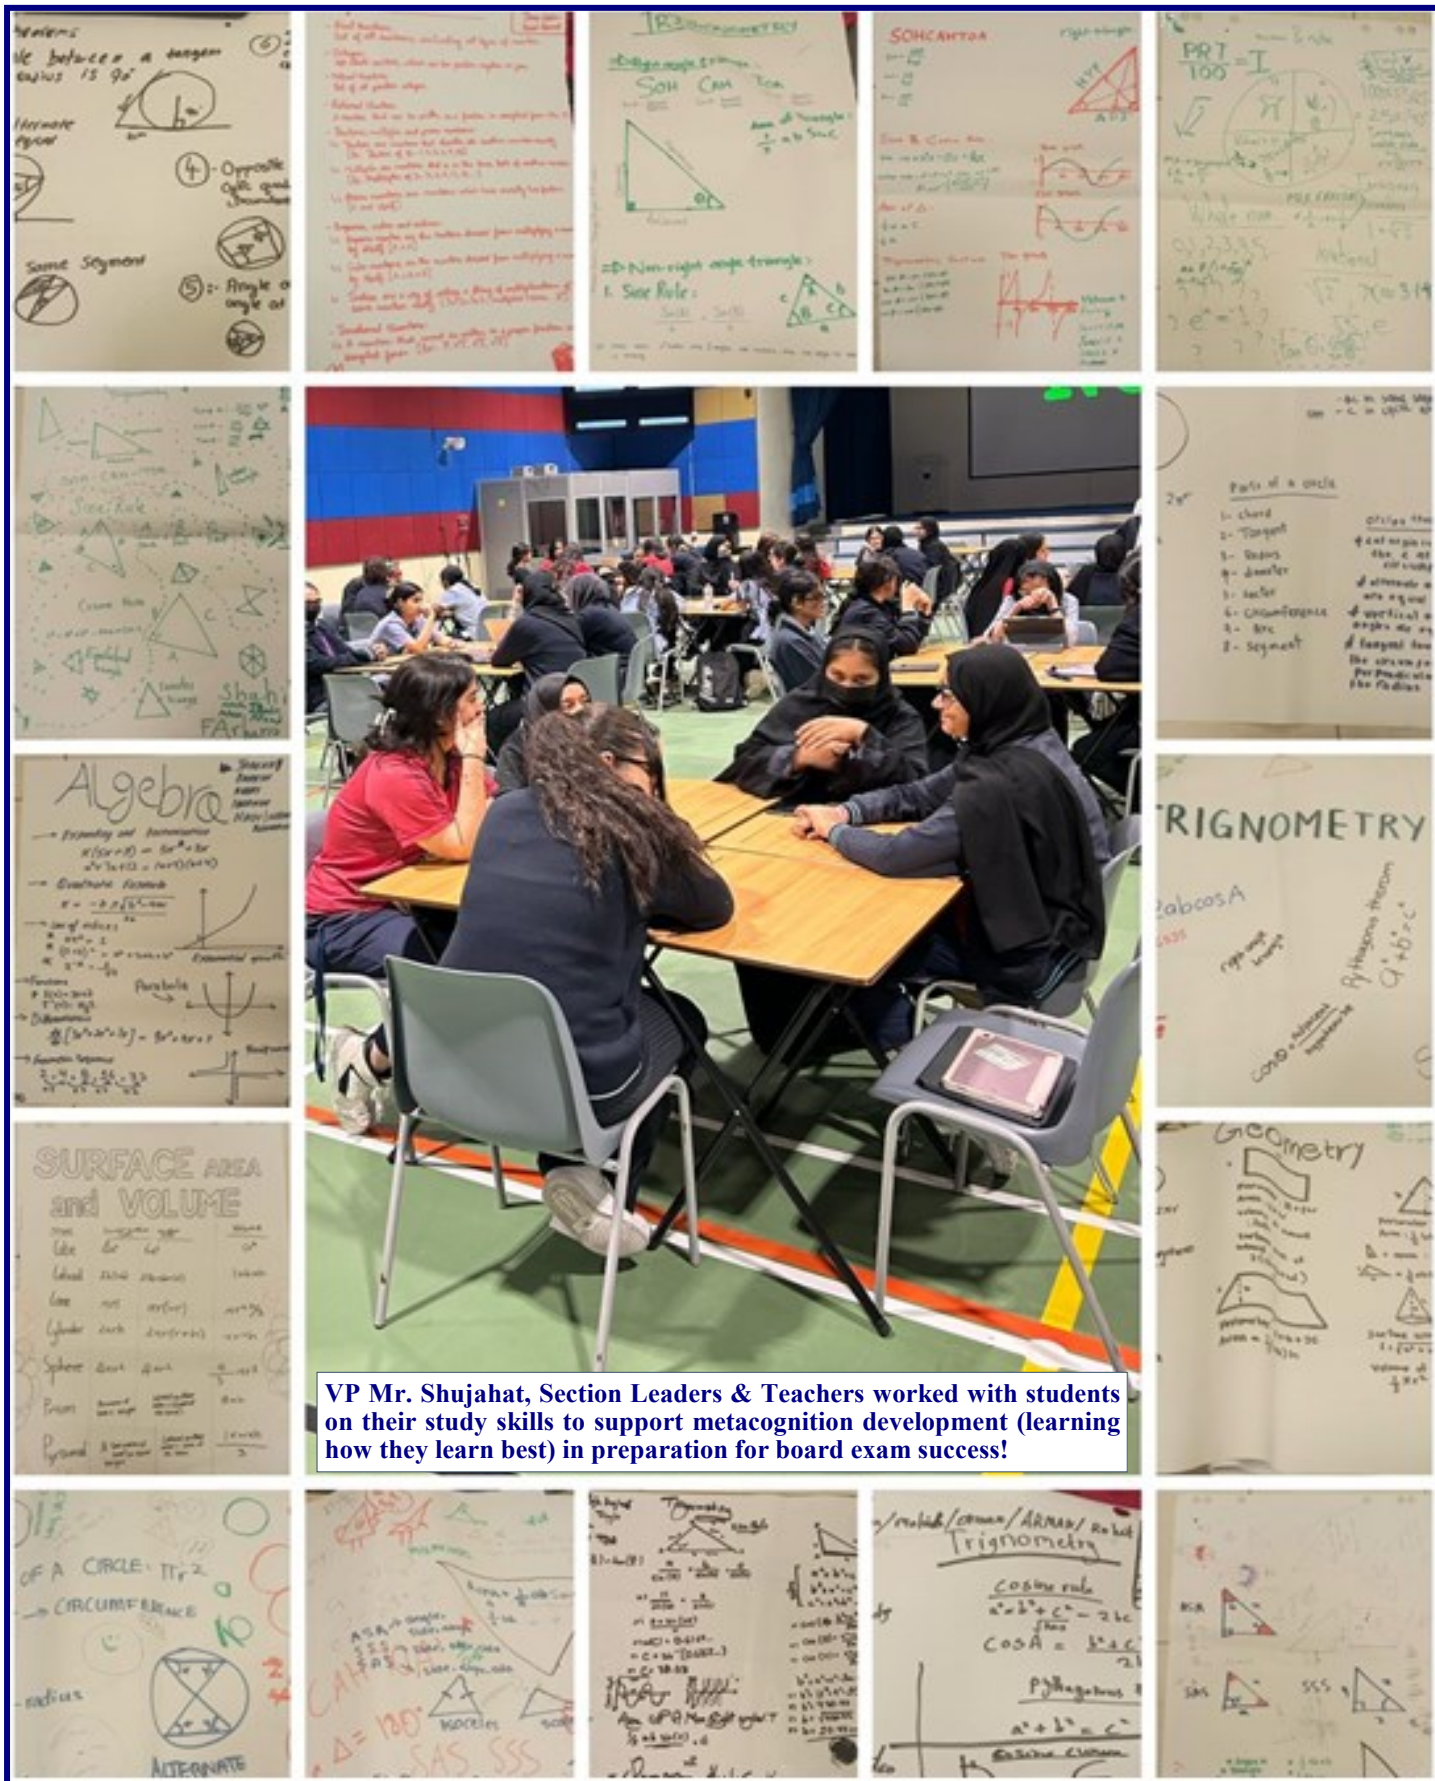

The MUN posed an incredible learning opportunity for beginners and younger students who hoped to embrace their confidence and uncover their potentials. One such example was a thirteen-years old student whom happened to be an International Press Corps (IPC) delegate. He carried his curiosity ~~unusually~~, asking curated questions and taking humble leadership of his team. He was a true highlight of his committee, charming not only chairs but fellow teammates and competitors alike.

The culmination of the day's events really came through during its social events. After filling up on meals provided by the generous WSS faculty, attendees fizzed about, introducing themselves to one another, sharing their experiences and opinions, commenting on the more fanatical parts of their sessions and familiarizing themselves with a course of handmade carnival games created by organizers to wind down.

The WSSMUN was a true show of positivity, ~~neighbourliness~~ and innovation. Students and staff members left it saturated with exhilaration for what is to come and hopefully a rendition of the event in the future as WSS has proven it's more than capable of delivering a standard for wellbeing.
