Dear Miss Valarie, Administration, Teachers and Staff.

I am still smiling from the absolutely wonderful school concert! I loved everything about it, and I just had to write to say a huge thank you to everyone involved.

The kids' performances and dance routines were spectacular. It was pure joy to watch them shine on stage. I know an event this flawless takes immense hard work, and the dedication of the teachers and staff shone through every single moment.

The decorations were also beautiful and made the entire venue feel so magical and festive. Thank you all for pouring your hearts into creating such a memorable experience for our families. We are so lucky to have you!

With warm admiration and gratitude,

GEM of Reflection for Primary

I learn best when my teacher explains things clearly and shows examples. I enjoy learning through fun activities, games, and group work. I can focus better in a quiet classroom and when I get short breaks between tasks.

I learn best when I am happy, calm, and interested in the lesson. I like learning by doing activities and working with my friends. I understand better when instructions are simple and step by step.

I learn best when I am focused and listening carefully to my teacher. I like lessons that include fun tasks like experiments, games, and group work. I understand more when I can see things, touch things, and try them myself. - Vania
